

Maternity Care

Having a baby is a very personal experience, so we do everything we can to make you and your family feel comfortable.

Thanks to a special partnership with UMass Memorial Health Care, we can provide the **best of both** worlds to mom and baby in south central Massachusetts.

Your care begins the moment you realize you are expecting. Our office staff will guide you through your prenatal consultations and appointments, being sure to answer any questions you have along the way. We provide:

- Local access to a maternal-fetal medicine (MFM) specialist
- Level II ultrasound testing
- Childbirth preparation courses
- Sibling courses
- Breastfeeding support group

When it comes time for delivery, our patients are in the best of care at UMass Memorial Maternity Center in Worcester. With the region's only Level III Neonatal Intensive Care Unit, the hospital delivers more than 4,000 babies per year with compassion.

After delivery, all your postnatal care, newborn care and family health needs are brought right back here – to familiar faces and a comfortable patient-centered approach to care within the Harrington system.

OBSTETRICS & GYNECOLOGY

Services to meet
the needs of women
at every stage of life.

Our approach to women's health

is to bring personalized, high-quality and compassionate services to all our patients. Our practice can take care of you – from adolescence through post-menopausal years.

We offer general and preventive gynecological services, including well visits and surgical procedures. We also have urogynecologists on staff and work collaboratively with our physical therapy department to assist individuals with urinary or pelvic floor-related disorders.

Our offices include on-site ultrasound and flexible scheduling. We do everything we can to make it easy to schedule an appointment at a time that's convenient for you. We also offer compassionate prenatal and postnatal services, including all preventive obstetric testing and appointments, support services, high-risk pregnancy monitoring and newborn care.

Some of our services include:

Cervical cancer screenings | Endometriosis | Laparoscopic/Hysteroscopic surgery
Birth control management, including Nexplanon, Mirena, Skyla, PARAGARD & Essure
Surgical contraceptive choices | Urinary incontinence | Prolapse | Infertility counseling
Treatment of HPV/STDs | Hormone replacement therapy | Pelvic pain | PMS\PMDD
